1. Surety Bond Claim — Filing with the relevant bonding company, triggering formal investigation and potential immediate payout.
2. Commercial Liability Insurance Claim — Forcing claim payment and creating a permanent claim history, impacting insurability and increasing premiums.

is received. Returning the vehicle will not reduce or extinguish this obligation. Any attempt to delay, ignore, or retaliate will increase the damages and will be pursued under both ecclesiastical and commercial jurisdiction, personally and corporately.

Escalation of Enforcement
Failure to cure within the stated period will trigger the following enforcement measures without further notice:

Day 3 – Bond company follow-up, confirming the claim is active and escalating daily damages.

Day 7 – Public dishonor publication to global notice boards, bonding regulators, and relevant media outlets.
Day 10 – Pre-Lien Notice filed, initiating attachment against your real and personal property, with liens recorded in public records within fifteen (15) days.
